WHEAT STRONG AND HIGHER

THE CEREAL JUMPED UP 1 3-4c ON FIRM FOREIGN MARKETS.

Corn Opened Easy, but Closed Strong With a Gain of 1 7-8c-Oats Advanced Nearly a Cent and Provisions Were Unchanged.

Chicago, Ill., May 1.—Largely because of the steadiness in foreign markets, wheat was strong to-day, closing the higher for July. July corn closed the higher, July oats the higher and provisions practically

The first thing to strike the wheat trad-ers was the steadiness of the Liverpool market, notwithstanding pesterday's weakmarket, notwithstanding yesterally & Wesk
mess here. The significance of the foreign
firmness was that the heavy Russian shipments, which had been in largs measure
the cathes of the decline here yesterday,
was not apparently worrying the people
there. The quantity of wheat delivered
was generally estimated at about 3,00,000
bushels, being delivered by the elevator
companies and taken delivery of by some
eight or ten commission houses. Rains
had failen plentfully in the drouth regibns of Southern Kansas, Nebraska and
the Dakotas, but in this rogion drouth
is being more frequently mentioned than before. Minneapolis and Duluth reported receipts of 413 cars, against 225 a week ago
and 184 year ago. Primary market receipts, all told, were 30,000 bushels, against
day and 164,000 on the previous Weetney
of the year before. Experious Weetney
of the year before. Experious delivery
of the year before, have a proposed from
the Atlantic and any were only
from the Atlantic and the proposed of wheat
for the most part, under the influence of
the better cables, assisted by a vague
feeling that there is great danger in selling wheat short. July, which closed yeaterday at Elegable, opened at 6200, and
from that up to 830c, May, at the same
time, brought from 620c to 620c. In a
short time July and risen to 60c, and
from that up to 830c, may, at the same
time, brought from 620c to 620c. In a
short time July and risen to 60c, and
from that up to 830c, may at the same
time, brought from 620c to 620c. In a
short time July and risen to 60c, and
to ther times a far as could be acceptained up to the close, but May advanced
to, and closed at 6c, and July to 6u and
closed a failed, several times, ellers and
at other times a far as could be acceptained up to the close, but May advanced
to, and closed at 6c, and July to 6u and
closed at 63cc. Closing cables, reported
recovery abrond from yesterday's break.
There was a great soarcity of the market
and the seaboart sent buying orders.
Sales were made for shirment of 7,000
bu

FINANCIAL.

There was a better call for money yester-day than for some days. The supply of cattle paper was good and general trade was in the market for a little new money. Rates steady and firm at 60% per cent. Currency shipments light. Bank clearings, SLEX.507; same day last year, \$1.50.503; a decrease of \$157.40, a loss of 10 per cent. Eastern exchange in good demand, but hardly so firm.

Houston, Fible & Co., exchange brokers, quote it as follows: New York, \$1.25 premium; Chicago, 60c premium; St. Louis, like premium.

Local Bank Stock Quotations. The following are the bid and asked prices of stocks of Kansas City banks and other local securities, as furnished by H. P. Wright & Co., brokers, Armour building:

Stocks and Bonds.

New York, May L.—There was a fairly good distribution of business on the Stock exchange to-day, and the transactions were comparatively heavy, notwithstanding the fact that there were periods of inactivity, notably during the morning, when the speculation was quite sluggish. The undertone of the market was, however, firm throughout, and although there were occasional reactions, there was no great pressure to sell at any time and the changes in prices of the day are in the main toward higher figures, the exceptions being as a rule in specialties. The dealings were all for the home account, as it was a holday on the London exchange, and the strictly commission houses were more largely in the market than usual, which goes to show that outsiders are being attracted to the street. There was a moderate decrease in the volume of bond trading, but the tone of the market was firm.

imported, you know, These schools, however, will be overlist the same Ed Shields that with a little more avoir lupus.

remone, however, will be unstanced, as he is the name Ed Shields that went away, with a fittle more avoirdupous.

Lodd, Panny & Swarger, at the stock yards received the following wire from William Johnson, Atlan, Kas. I did not lost list that, it rained too hard.

The deliveries on May contracts in Chicago yesterday were, Language his his took for the wheat, 10.00 hards of pure, and 1,220,000 pennes of rise.

The Santa Fe rained of freight offices for it, and 1,220,000 pennes of rise.

The Santa Fe rained of freight offices have received reports on the wheat cop from the principal stations in Kansas, ever half of them report very poor prospects for a crop.

James Mullin, Miame county, Kas., was at the suck yards yesterday. He says most of the wheat in his county was while railled, What not plowed up looks fairly well. Corn up and coles have been continued in the official visible supply are as follows. 43,000 bushels in Northwestern histories elevatory, 16,000 hushels at New Orleans, 17,000 bushels in Chicago bushels at Leuisville, Corresponding increase includes 12,000 hushels at Pittaburg, and 3,000 bushels at Pittaburg, and 3,000 bushels in Chicago private elevatory, 25,000 hushels at Pittaburg, and 3,000 bushels at Union or the recent when the sure of the wheat which issued of trying to cover his May wheat, which he know would be impossible, be did nost of his buying in July. He is now 'stranded' on some millions, short the May and long the July. The only this which could hurt him would be a corner in May, a thing not at all likely. But the crowd, aware of his action has hoped that he would try to make the change back, and for that reason has been inclined to buil May. This has been on reason for the narrowing up of the May-July spread to less than the full carrying charges.

St. Louis May 1.—Nearly all the wheat In local public elevators was delivered to-day upon May contracts in all about

St. Louis, May 1.—Nearly all the wheat in local public elevators was delivered to-day upon May contracts, in all about 1,80,000 bushels of No. 2 red, the contract grade; 40,000 bushels of it from the farmers and terminal elevators and the rest handled by the United Elevator Company, Block, Dean & Co. who represent the long interest on the May option, received most of the grain and paid for it. The deal involved fully \$00,600 and none of it was pressed for sale, showing how well it was placed.

or the grain and paid for it. The can involved fully \$10,000 and none of it was pressed for sale, showing how well it was placed.

Whether the firm represents a Paducah, Ky., syndkate or a St. Louis combine is not known. The enormous deal frightened the May shorts and they bid options up to 50% and then could purchase little. The shorts were badly rattled and a "corner is uppermost in discussion.

Weather Observer Jennings, of Topeka, Kas., in his weekly crop report, says: "The past April has been the dryest and warmest for many years. Only 91 of an inch of rainfall and the mean temperature was 60%. The report says:

"In the Eastern division all crops are beginning to show the need of rain. In the northern counties conditions are more favorable than in the central or southern. Outs, grass and corn are not pushing ahead as fast as usual, while wheat, generally, is not as promising as a week sgo, though there are some exceptions. Corn is being cuivlated for the second time in the south and the first cultivation has begun in the central counties. Stock is generally on pasture, but water is getting lower every day.

"A very large acreage of corn is being put in in the middle division. Conditions are favorable for all crops in the northern counties, but change toward the southern, where the wheat is not making process, and much if it is being replanted to corn. The need of rain is felt more in the southern part for all crops. Fruit here, as in the castern division, promises an abundance.

"In the western division conditions have materially improved during the week.

ance.
"In the western division conditions have
materially improved during the week.
Prairie grass making good headway and
stock is improving on it. Smail grains are
doing better. Alfalfa is in excellent condition, though the report from Finney county
shows a material difference between fields
irrigated or not last year. All fruit prospects are good."
